

World Class Conferencing Automated Audio Conferencing - Overview

Everyday conferencing needs

World Class Automated Audio Conferencing is a convenient form of audio conference calling that provides you with the utmost in flexibility along with a wide array of useful features that are designed to enhance your communication with business professionals from across the world, at a moment's notice.

Meet on demand

World Class Conferencing puts this convenient state of the art service in your hands for use 24 hours a day, 365 days a year, with World Class Automated Audio Conferencing you eliminate the need to make a reservation for those day-to-day conference calls.

Easy to start, simple to use

Simply invite your participants to join your meeting at a designated time. Supply them with the toll free (Participants in US or Canada) or toll (International Participants) access number along with your Participant Pass Code. Upon the start of your conference, your participants will be placed on music hold. When you are ready to start your conference simply dial the toll free access number and enter your Host Pass Code at the prompt. You are now ready to start your conference. Easy to use enhanced features such as muting and roll calls are available for your use throughout your conference.
